N

The new
Flip-Up

Neotec 2

Neo- tec 2

Newly designed cheek pad including „Noise Isolator“

- Deflector prevents wind ingress
- Maximum noise reduction
- Optimum wearing comfort

4

Improved flip up mechanism

- Innovative, two-stage locking system in opened state allows P/J double homologation
- Stainless steel pivot locking system

5

Optimized visor form

- Complete new design
- Special shape for optimum sealing
- Minimized optical distortions

9

Position A

- Opened, engaged

4A

Position B

- Opened, locked firmly (Jet-homologation)

4B

3

Compact helmet shell

- 3 different outer shell constructions for modest dimensions
- Ultra Lightweight by innovative Shell Moulding Technology
- Wind tunnel developed for perfect aerodynamics

4

5

2

2

Prepared for SENA communication system*

- Perfectly integrated into the helmet
- No protruding operating unit
- Helmet design won't be effected

*The communication system SRL developed by SENA and specifically designed for SHOEI Neotec 2 is distributed and marketed by SENA exclusively.

Safety

- **Shell in AIM**
Organic and multi-composite fibres in various layers for a shock-absorbent shell with optimum rigidity
- **EPS-liner system with two densities**
Optimized protection through EPS elements with different shock absorbing levels
- **Mist-retardant CNS-3 Pinlock-system**
Fast and easy to change
- **Stainless steel Micro Ratchet System**
Easy to use and always perfectly adjusted
- **360° Pivot-Locking-System made from stainless steel**
For safe locking of the face cover
- **Double homologation P/J**
Homologated as jet- and integral- helmet

Wearing comfort

- **QSV-1 sun visor**
DIN EN1836 approved
- **3 different outer shell constructions**
For perfect fit and compact dimensions
1) XS-M, 2) L, 3) XL-XXL
- **3D centre pad, detachable and washable**
For pleasant wearing comfort
- **Cheek pads detachable and washable**
For better care and individual adjustment
- **Detachable and washable chinstrap cover**
For ease of cleaning
- **Ear pads**
For noise reduction
- **Prepared for SENA SRL* communication system installation**
*Developed by SENA and specifically designed for Neotec 2, distributed and marketed by SENA exclusively.

Ventilation

- **Multiple venting and extraction**
For optimum ventilation performance
- **Inlets at the upper head and chin areas**
Provide maximum ventilation performance
- **2 Outlets at the rear**
To extract warm air
- **Dramatically Increased airflow**
Through newly developed air intakes

Aerodynamics

- **Integrated spoiler**
For optimized aero dynamical performance
- **Integrated Vortex-Generator**
Active noise cancelling
- **Newly designed chin spoiler (Aero Deflector)**
Relaxed ride through less turbulences

Accessories

- **Service-Tool**
(Included)
- **3 CNS-3 visors (see page 74)**
In different colors
- **2 QSV-1 sun visors (see page 74)**
- **Cheek pads**
In different sizes for individual adjustment
- **Centre pad**
In different thicknesses
- **Breath Guard (see page 74)**
Reduces fogging of the visor
(Included)
- **Chin Curtain (see page 74)**
Reduces turbulences inside the helmet
(Included)
- **Original SHOEI helmet bag**
Comes with the helmet

AIM+

7

6 ply shock absorbent fiber shell

- Multi-composite & high performance fiber layers
- High strength, light weight
- Optimal elasticity

Safety

- **Shell in AIM+**
Organic fibre, multi-composite and high-performance fibre in various layers for a shock-absorbent shell with optimum rigidity
- **Modular EPS liner system with multi densities**
Optimized protection through EPS elements with different shock-absorbing levels
- **Mist-retardant CWR-F pinlock visor**
 - 2-dimensional shape for easy application of tear-offs
 - Vortex generators for advanced aerodynamic performance
- **Double D-Ring**
Easy to use and always perfectly adjusted
- **Security system**
E.Q.R.S. (Emergency Quick Release System) for easy helmet removal in case of an accident

Wearing comfort

- **4 different outer shell sizes**
For perfect fit and compact dimensions.
Sizes: 1) XS-S, 2) M, 3) L, 4) XL-XXL
- **3-dimensional cheek-pad**
Optimized fitting
- **Modular center-pad**
For individual adjustment
- **Cheek-pads and center-pad detachable**
For easy cleaning
- **Detachable and washable chinstrap cover**
For better care

Ventilation

- **New Cheek Vent System**
Active cooling even in the lower part of the helmet
- **6 closable air inlets and 6 air outlets**
Optimum ventilation performance for sport-riding

Aerodynamics

- **Sophisticated aerodynamic system**
To reduce drag and lift and avoid shaking
- **Rear stabilizer with equipped flaps**
Two sizes of flaps available, for different conditions
- **Lower air spoiler**
Controlled airflow around the lower part of the helmet

Accessories

- **14 different visors (see page 74)**
In individual tints
- **Cheek pads**
In different thicknesses for individual adjustment of fit (31, 35, 39, 43 mm)
- **Modular centre pad**
In different thicknesses
- **Breath Guard (see page 74)**
Comes with the helmet
- **Chin Curtain (see page 74)**
Comes with the helmet
- **Lower Air Spoiler**
Comes with the helmet
- **Original SHOEI helmet bag**
Comes with the helmet

DNA

The Evolution of an Icon

- Advanced Shell Moulding Technology
- Ultra lightweight, strong structure
- 3-piece EPS liner including M.E.D.S. (Motion Energy Distribution System) to reduce rotational acceleration energy
- Fully integrated and improved Peak
- E.Q.R.S. (Emergency Quick Release System)

New

The Icon

strikes back

— 3D Cones absorb rotational energy

New

Protection

System

1

M.E.D.S. (Motion Energy Distribution System)

— The main layer of EPS liner absorbs impacts from the usual, while an additional centre layer of EPS liner reduces rotational acceleration energy to the head in the event of an accident.

— Significant reduction of rotational force to the rider's head
— More technically advanced than any existing conventional dual liner system

Safety

- **Shell in AIM+**
Organic fibre, multi-composite and high-performance fibre in various layers for a shock-absorbent shell with optimum rigidity
- **M.E.D.S.**
(Motion Energy Distribution System)
Additional layer of EPS liner reduces rotational acceleration energy to the head in the event of an accident
- **3-piece EPS liner system**
Optimized protection through EPS elements with different shock-absorbing levels
- **E.Q.R.S.**
(Emergency Quick Release System)
Simplifies helmet removal by removing the cheek pads in the event of an accident
- **Double D-Ring**
Easy to use and always perfectly adjusted
- Including mud guard

Wearing comfort

- **4 different outer shell constructions**
For perfect fit and compact shell sizes:
1) XS-S, 2) M, 3) L, 4) XL-XXL
- **Detachable and washable 3D Max-Dry cheek pads**
 - In different sizes for perfect fit (31, 35, 39 mm)
 - Breathable and moisture absorbent
- **Detachable and washable 3D Max-Dry centre pad**
 - For ease of cleaning
 - Breathable and moisture absorbent
- **Chinstrap cover detachable, washable**
Easy to maintain and clean

Ventilation

- **Multiple venting and extraction**
For optimum ventilation, even in the hottest racing situations
- **Several intake vents on the brow area and on the upper head area**
For fresh air intake
- **Multiple outlet vents in the spoiler and on the neck**
To exhaust warm air

Aerodynamic

- **Special shell construction**
Radical sporty design with integrated spoilers for optimized aerodynamics and performance
- **Fully integrated peak**
Seamless connection between shell and peak
- **Aggressively-shaped face guard**
For reduced drag

Accessories

- **3D cheek pads**
In different thicknesses for fine adjustment of fit (31, 35, 39 mm)
- **Peak**
Available in various colours and decors
- **Chinstrap cover**
- **Centre Pad**
In different thicknesses for fine adjustment of fit
- **Nose Cover**
Available in various colours
