## MERITOR

### OPTILITE BRAKE DRUM

The Meritor Opti-Lite brake drum is exclusive to Western Star.

Opti-Lite drum performance advantages:

- Allows for higher vehicle payloads and fuel economy with proven durability.
- Exclusive one-piece patented spin-formed steel drum provides 15-20% weight savings versus standard cast drums.
- Superior durability compared to competitive lightweight composite drums.

**\$220**

### READYSET NO-REAM KING PIN

With the ReadySet solution, you eliminate the need for reamers, resulting in a simple and faster installation. These king pin kits are easily installed by hand with applicable bushing drivers.

King pin kit advantages:

- No reaming necessary on king pin bushings.
- Built for strength with metal-to-metal componentry.
- Manufactured for quality and durability.

# WHEEL SEALS

Features and benefits:

- Standard wheel seals feature a nitrile compound rubber (NBR) for the sealing lip.
- Premium wheel seals feature a hydrogenated nitrile butadiene rubber (HNBR), offering additional advantages of higher temperature capability, greater wear resistance, and compatibility with all known synthetic lubricants.
- The multi-zone labyrinth design and low-friction barrier deliver unmatched durability and protection against dirt, grime, water, and other contaminants.
- The bumper transmits the fitting force from the front of the seal to the outer diameter, and acts as the first defence against contaminants.
- The seals provide outstanding lubricant retention and protection against contaminants, but they are also easier to install, which significantly decreases the potential for damage during installation.

# MERITOR/RDP BRAKE SHOES

Performance advantages:

- Correct shoe table arc and dimensions are engineered to OEM specifications.
- Original Meritor approved non-asbestos lining material.
- Anchor pins and rollers made from case hardened steel according to Meritor standards.
- Corrosion resistant paint.
- All kits contain two shoes, plus hardware for one wheel end.
- FF rated friction material.
- Designed and tested to perform under demanding conditions.
- To suit all makes brake types.

## GME XRS 370C RADIO/ANTENNAS

**Get connected, get an XRS Bluetooth-enabled UHF CB radio.**

The XRS family is a new Australian-made radio platform designed to be smart, adaptable and rugged.

Enabled by Bluetooth wireless technology, XRS is the first of a new generation of connected UHF radios with unique features never before seen.

It is the first ever UHF CB radio with app control and introduces new features such as creating and sharing scan lists and instant access to the entire Australian and New Zealand registered analogue frequency database.
